Contents

Foreword by Tony Sweet *xv*

Foreword by George D. Lepp *xvi*

Introduction *xvii*

Chapter 1 **Thinking Digitally** **1**

Photographic Techniques 2

Choosing RAW versus JPEG 4
What's So Great about RAW? 6
Advantages and Disadvantages of Shooting JPEGs 9

Understanding Histograms 10
Types of Histograms 11
Interpreting Histograms 14

Exposure 20
"Expose Right" by Michael Reichmann 21

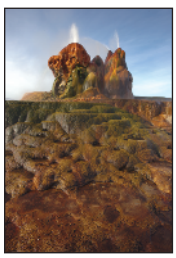
White Balance in Nature Photography 24

Color Management 27
Monitor Calibration 28

Photographing Images to Composite Later 31
Expanding Camera Capabilities 31
Photographing Parts of the Scene Individually 32
Image Components 32
Ethical Considerations 34

Aperture and Lightroom 35

Storage Considerations 37



Chapter 2 **Bridge** **41**

Customizing Bridge 42
Setting Bridge Preferences 42

Downloading Images 50
Creating a Metadata Template 53
Renaming Your Images After Import 54

Bridge Views and Workspaces 55
Filmstrip Views 56
Other Views 60
Recognizing the Icons 62
Stacking Images 62

Sorting and Editing 65
Zooming and Comparing Images 66
Rating Images 67
Labeling Images 68
Using the Filter Panel 68
Creating Collections 70
Using Keywords 70

Additional Features 72

Mini Bridge 75

COPYRIGHTED MATERIAL

Chapter 3 Adobe Camera Raw 91

Using the ACR Interface 92
Seeing Your Image within ACR 92
Cropping and Rotating within ACR 94
Using the Spot Removal Tool 97
Controlling the Default Appearance of Your Image 99

Using the Basic Tab 103
Setting White Balance 103
Adjusting Tonalities 105
Using the Recovery and Fill Light Sliders 106
Using the Brightness and Contrast Sliders 108
Modifying Clarity, Vibrance, and Saturation 108

Setting the Other Tabs 109
Setting the Tone Curves: The Tone Curve Tab 109
Sharpening and Reducing Noise: The Detail Tab 111
Correcting Color: The HSL/Grayscale Tab 114
Alternate Interpretations: The Split Toning Tab 116
Fixing Aberration and Vignetting: The Lens Corrections Tab 117
Adding Grain and Vignetting: The Effects Tab 118
Accounting for Camera Variation: The Camera Calibration Tab 119
Preset Tab 119
Snapshot Tab 120

Making Localized Adjustments 120
Using the Adjustment Brush 120
Using the Graduated Filter 122

Making Targeted Adjustments 123

Setting ACR Workflow Options and Saving Files 124
Choosing the Space 124
Choosing the Depth 125
Choosing the File Size and Resolution 125
"Sharpen For" Options 126
Opening an Image as a Smart Object 126
Finishing Up in ACR 126

Batch-Converting Multiple Images 128

Chapter 4 Foundations 131

Customizing Settings 132
Color Settings 132
Preferences 135

Views and Zoom 148
Application Bar 148
Windows and Workspaces 149
Zoom Tool 155
Hand Tool 157
Navigator Panel 158
Navigating by Keyboard Shortcuts 159

Selection Tools 160
The Lasso Tool 161
The Magnetic Lasso 164
The Magic Wand 168

The Quick Selection Tool 172
Using the Refine Edge Controls 173
Combining Tools 180
Saving and Loading Selections 181

Brush Tools 183
Brush Panel 186
The Color Replacement Tool 188
The History Brush 189

Chapter 5 Workflows and First Steps 193

Understanding Layers 194

Flexible and Traditional Workflows 196
Smart Objects 197
Smart Filters 199
The Flexible Workflow 202
The Traditional Workflow 204

Cropping and Straightening in Photoshop 206
Cropping 206
Straightening Horizons 210

Doing Cleanup in Photoshop 213
Zooming, Navigating, and Layering for Cleanup 213
The Photoshop Cleanup Tools 217
Removing Dust 223
Removing an Undesirable Object 225
Creating New Background on Empty Canvas 226

Chapter 6 Exposure Adjustments 231

Shooting for Optimal Exposure 232

Using the CS5 Adjustments Panel 233

Tonal Adjustments with Levels 235
Revealing Detail 238

Targeting Adjustments Using a Layer Mask 243
Masking a Selection 245
Using the Color Range Option 246
Painting on a Mask 247
Refining the Layer Mask 251

Curves 253
Clipping Preview 254
Anchor Points 254

Creating a Virtual Split Neutral-Density Filter 263

Safe Dodge and Burn Layers 265
Setting Up 265
Painting with Light 267
Correcting Mistakes 268

The Shadows/Highlights Adjustment 269

Emphasizing Your Subject 273

Chapter 7 **Color Adjustments** **275**

Recognizing Color Casts 276
Using Hue/Saturation to Reveal a Color Cast 276
Using the Info Panel to Reveal a Color Cast 277

Removing Color Casts 279
Subjective Methods for Removing a Color Cast 279
Objective Method for Removing a Color Cast 282

Adding a Color Cast 286

Modifying Colors to Match Nature or Add Impact 288
Adjusting Hue and Saturation 288
Adjusting Vibrance versus Saturation 291
Fine-Tuning with Selective Color 292

Using Layer Masks with Color Adjustments 293

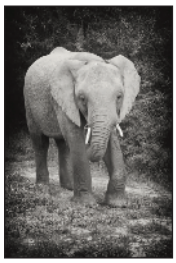
Chapter 8 **Composites** **299**

Creating Panoramas 300
Photomerge 300
Matching the Exposures of Each Segment of the Panorama 303

Expanding Dynamic Range 308
Shooting to Expand Latitude 308
The "Cookbook" Approach to Expanding Latitude 309
Expanding Latitude via Merge to HDR Pro 313

Extending the Depth of Field 320

Combining Elements from Multiple Pictures 325
Advanced Selection Methods 326
Compositing the Elements 330
Replacing a Sky or Other Background 333



Chapter 9 **Creative Effects** **337**

Black and White 338
Converting to Black and White 338
Colorizing Black-and-White Images 343

Painterly Images 348

Filters 351
Using Smart Filters on Smart Objects 351
Using Filters without Smart Objects 354
Lens Correction Filter 354
Blurs 359
The Liquify Filter 364
Using the Filter Gallery 367

Digital Montages 372
Blending Modes 372
Surreal Montages 374
Mirror or Flip Montages 377
Mirror Images 378
Multiple-Subject Montages 380

Digital Multiple Exposures 384

Content-Aware Scaling 387

Chapter 10 Output **393**

Output Workflow 394
Duplicating the Image 395
Resizing 396
Reducing Noise 398
Sharpening 403

Printing Your Images 414
Soft-Proofing 414
Configuring the Print Settings 415
Choosing the Best Paper 422
Adding Borders 423

Creating Business Cards and Greeting Cards 431
Creating a Business-Card Layout 431
Creating the Print Layout 437

Using Adobe Output Module 440
Contact Sheets 441
Creating a Web Gallery 444

Chapter 11 Time-Savers **451**

Actions and Batch Processing 452
Creating an Action 452
Advanced Controls in Actions 456
Batch Processing 458
Creating a Droplet 464

Using the Image Processor 466

Creating a Copyright Brush 467

Individualizing Keyboard Shortcuts 470
